SUPPLEMENTAL INFORMATION

Cattle will selling in posted order, not in catalog lot order. Lots out of sale include: 69, 102, 125, 184, 210 and 278. Lot 295 sells without calf at side.

All 2 Yr. Old Bulls have passed semen test with the exception of lot 49 that sells subject to retest (close to testing good). All yearling bulls will be tested prior to delivery. Any yearlings picked up on sale day will need to be tested, and APEX will reimburse @ \$30/ head to the buyer.

Complete calf and annual vaccination plus worming protocol is maintained as recommended by veterinarian. All sale lots have been poured with Clean Up II within the last 30 days. Bred heifers have received Guardian scour guard vaccine.

All females have been officially calfhood vaccinated (OCV).

All fall bred cows are 100% pregnant to the AI service as confirmed by ultrasound!

Lots 119 and 134 EPDs are ASA pedigree estimates as DNA still in process, pedigree is guaranteed accurate.

Calves at side of fall cows will be registered and transferred, their catalog EPDs represent ASA pedigree estimates.
